**CERTIFICATION OF MEET AND CONFER**

18 Pursuant to Local Rule 37-1, the parties met and conferred on October 30, 2025  
19 regarding the discovery issues raised in this motion (Dkt. #86). The parties again  
20 met and conferred on December 16, 2025, during which Requests for Admission  
21 were a primary subject (Dkt. #117), and subsequently on February 12, 2026,  
22 March 4, 2026, and March 5, 2026. The Court ordered the parties to complete the  
23 joint stipulation table within seven (7) days prior to filing. Plaintiff complied and  
24 includes the completed table in accordance with Local Rule 37-2.1.

25

26

27

**INTRODUCTION**

28 The Court ordered the parties to complete meet-and-confer efforts by March  
29 20, 2026. Defendant did not engage in any further meet-and-confer efforts  
30 following that directive. Plaintiff thereafter served a complete joint RFA  
31 stipulation table on Defendants, triggering the seven-day response period ordered  
32 by the Court. Rather than focusing on providing substantive responses within that

33 structure, Defendants served amended RFA ‘responses’ only after receiving  
34 Plaintiff’s completed table. Those amended responses did not contain a single clear  
35 admission or denial. Instead, Defendants asserted new objections not previously  
36 raised and failed to address *any* of the identified deficiencies, preventing resolution  
37 of the issues presented. They then took those improper and untimely supplemented  
38 answers and snuck them into the table for this motion. They should be disregarded.

39

40 The summary of this motion and the Defendants in particular is:

- 41 1. won’t answer admissions or interrogatories substantively
- 42 2. won’t provide privilege logs but claims privilege
- 43 3. produces no evidence sought
- 44 4. ignores a court order to produce native files, destroys metadata
- 45 5. edits evidentiary documents by hand
- 46 6. denies obvious binary facts, admits nothing adverse
- 47 7. makes improper objections
- 48 8. makes false statements under oath
- 49 9. manipulates, spoliates and substitutes evidence
- 50 10.provides no explanation, showing of cause or counter evidence in rebuttal
- 51 11.Does nothing to ever cure regardless of the situation

52 Each of these points will be thoroughly explained and evidenced in this document.

53 **BACKGROUND**

54 Defendant served discovery responses on or about September 30, 2025.

55 Those responses consisted of approximately 90 pages of boilerplate objections  
56 (Dkt. #80-2). To date, Defendants have not provided substantive responses to any  
57 Requests for Admission, have not completed any compliant document production  
58 responsive to Plaintiff’s requests (*only one RFP and it was wholly non-compliant*  
59 *(see Walsh Decl. re Evidentiary Package Ex. 4)*), and have not provided a single  
60 substantive answer to interrogatories.

61 Defendants have repeatedly stated that they would not produce discovery  
62 without entry of a protective order. A protective order has since been entered, no  
63 change. The Defendants prior agreed with the Court to provide substantive  
64 responses (“*And then, once that (protective order) is in place—we’ll be looking for*  
65 *it and ready to do our part—then, Ms. Ellena, I assume whatever discovery has*  
66 *been held off, whatever production has been held in abeyance until that was*  
67 *issued, can then move apace. Does that sound reasonable?*”). Defendants agreed:  
68 (“*It does, Your Honor.*”). However, again, no change occurred after that  
69 agreement with the Court.

70 The Defendants have continued to withhold meaningful discovery, including  
71 admissions, documents, and interrogatory responses as they have openly admitted  
72 they are awaiting the results of their Motion to Dismiss, which is prejudicial and

73 highly improper: (“Your Honor — not to sound like other lawyers who appear  
74 before you, I will say that... our client feels strongly that the motion to dismiss...  
75 should be decided before... they’ll be really interested in determining... whatever  
76 may be left should be resolved”).

77 During this period, Plaintiff proceeded with discovery obligations despite  
78 the absence of any substantive responses from Defendants. Plaintiff produced a  
79 comprehensive evidentiary record (3,750+ pages) and prepared a ~38-page expert  
80 report as the Defendants demanded early receipt of (*see Walsh Decl. Expert  
81 Report*) without the benefit of any meaningful discovery from Defendants,  
82 including without any substantive admissions, document production, or  
83 interrogatory responses.

84 As a result, Plaintiff was required to commit to factual and legal positions  
85 without access to Defendant-derived evidence, while Defendants continued to  
86 provide no meaningful participation in discovery.

121 **LEGAL STANDARDS**

122 **1. Sanctions for Discovery Misconduct**

123 **a.** Stones v. Boys Republic (C.D. Cal. 2008) – Failure to produce  
 124 discovery and willful disregard of court orders justifies terminating  
 125 sanctions.

126 **b.** Computer Task Group, Inc. v. Brotby (9th Cir. 2004) –  
 127 Noncompliance with discovery obligations supports severe sanctions  
 128 where prejudice results.

129 **c.** Adriana Int’l Corp. v. Thoeren (9th Cir. 1990) – Persistent violations  
 130 and disobedience justify dispositive sanctions.

131 **d.** Coker v. Goldberg & Assocs. PC, 2024 WL 263121 (S.D.N.Y. 2024)  
 132 – Not providing a privilege log results in waiver of privilege  
 133 objections.

134 **2. Boilerplate Objections Are Improper and Ineffective**

- 135 e. St. Paul Reinsurance Co. v. Commercial Financial Corp., 198 F.R.D.  
136 508 (N.D. Iowa 2000) – Boilerplate objections are textbook improper.
- 137 f. A. Farber & Partners, Inc. v. Garber, 234 F.R.D. 186 (C.D. Cal. 2006)  
138 – Boilerplate objections are tantamount to no objection.
- 139 g. Curtis v. Costco Wholesale Corp., 807 F.3d 215 (7th Cir. 2015) –  
140 Boilerplate objections support deeming matters admitted.
- 141 h. Extended Care Clinical v. Scottsdale Ins. Co., 2021 WL 2894163  
142 (N.D. Ill. 2021) – Boilerplate objections are routinely rejected.
- 143 i. Zambrano v. Sparkplug Capital, LLC, 2020 WL 1847396 (N.D. Ill.  
144 2020) – Generalized objections are insufficient.
- 145 j. Am. Council of Blind of Metro. Chicago v. City of Chicago, 2021 WL  
146 5441102 (N.D. Ill. 2021) – Unsupported “burdensome/harassing”  
147 objections are improper.
- 148 k. Dominguez v. City of Rialto (C.D. Cal. 2025) – Boilerplate objections  
149 without evidentiary support are improper.

150 **3. Failure to Properly Respond Results in Admissions / Waiver**

- 151 l. Moore v. Cox, 341 F. Supp. 2d 570 (E.D. Va. 2004) – Failure to admit  
152 or deny is tantamount to an admission.
- 153 m. Siser N. Am., Inc. v. Herika G. Inc., 325 F.R.D. 200 (E.D. Mich.  
154 2018) – Boilerplate objections result in waiver.

155 n. Asea, Inc. v. S. Pac. Transp. Co., 669 F.2d 1242 (9th Cir. 1981) –

156 Evasive or incomplete responses may be deemed admitted.

157 o. Auburn Sales, Inc. v. Cypros Trading & Shipping, Inc., 2016 WL

158 3418554 (E.D. Mich. 2016) – Boilerplate objections are equivalent to

159 none.

160 p. Marchand v. Mercy Med. Ctr., 22 F.3d 933 (9th Cir. 1994) – Failure

161 to timely respond supports deemed admissions.

162 **2. No Timely Issued Privilege Log Waives Objection**

163 a. Mezu v. Morgan State Univ., 269 F.R.D. 565, 577 (D. Md. 2010) -

164 *“Absent consent of the adverse party, or a Court order, a privilege*

165 *log ... failure to do so may constitute a forfeiture of any claims of*

166 *privilege.”*

167 b. Melton Properties, LLC v. Ill. Central R. Co., 2024 WL 3015749

168 (N.D. Miss. June 14, 2024). - *“ the failure to produce a proper*

169 *privilege log generally constitutes waiver of the privilege objections.”*

170 c. Coker v. Goldberg & Assocs. PC, 2024 WL 263121 (S.D.N.Y. 2024)

171 – No privilege log waives privilege objection

172 **4. Burden of Proof for Discovery Objections**

173 d. Cipollone v. Liggett Group, Inc., 785 F.2d 1108 (3d Cir. 1986) –

174 Objecting party must show specific harm.

- 175 e. Oleson v. Kmart Corp., 175 F.R.D. 560 (D. Kan. 1997) – General  
176 objections are insufficient; burden must be substantiated.
- 177 f. Josephs v. Harris Corp., 677 F.2d 985 (3d Cir. 1982) – Conclusory  
178 “burdensome” objections are invalid.
- 179 g. G-69 v. Degnan, 130 F.R.D. 326 (D.N.J. 1990) – Burden must be  
180 supported with evidence.
- 181 h. Burke v. New York City Police Dep’t, 115 F.R.D. 220 (S.D.N.Y.  
182 1987) – Party must show lack of relevance or undue burden.

183 **5. Rule 26(e) Does Not Permit Strategic Delay**

- 184 i. Dayton Valley Investors v. Union Pacific R. Co., 2010 WL 3829219  
185 (D. Nev.) – Supplementation must be timely, not strategic.
- 186 j. Luke v. Family Care & Urgent Med. Clinics, 323 F. App’x 496 (9th  
187 Cir. 2009) – Rule 26(e) creates a duty, not a right.
- 188 k. Carlson v. Freightliner LLC, 226 F.R.D. 343 (D. Neb. 2004) –  
189 Untimely supplementation causing prejudice may be rejected.

190 **3. Adverse Inference**

- 191 a. Zubulake V v. UBS Warburg LLC, 229 F.R.D. 422 (S.D.N.Y. 2004) -  
192 adverse inference is issued where one willfully deletes relevant data  
193 after clear duty to preserve (*note the V as there was an earlier*  
194 *discovery ruling with the same name*)

195 b. Residential Funding Corp. v. DeGeorge Financial Corp., 306 F.3d 99  
196 (2d Cir. 2002) – An adverse inference instruction can be warranted  
197 even for ordinary negligence in failing to produce evidence, provided  
198 the breaching party had a "culpable state of mind" and the evidence  
199 was relevant.

## 201 ARGUMENT

### 202 1. Defendants Are Sandbagging Discovery

203 This Court has recognized the delays in this case and the prejudice born  
204 from those delays (*“The discovery hasn’t taken off... Instead, we’re here after, I*  
205 *think, a lot of delay—which is time that the parties lose in their discovery*  
206 *period.”*).

207 Defendants violated Rule 26(g)(1) and Rule 34(b)(2)(B)–(C) by issuing ~90  
208 pages of boilerplate objections while claiming ~250 plain-English terms such as  
209 { *“false”, “attorney”, “plaintiff”, “warranty”, “generally”, “employee”,*  
210 *“California”, “default”, “exhibits”, “your”, “authority”, “counsel”,*  
211 *“declaration”, “expert”, “existence”, “laugh”, “giggle”, “intended”,*  
212 *“evidence”, “conduct”, “speaking”*} are vague and ambiguous. (*full list Dkt #84*).

213 Only after Plaintiff served a ~38-page expert report (*see Walsh Decl. re:*  
214 *Expert Report*) and a Court-ordered deficiency table, and after the Court ordered

215 the Defendants to simply reply to the table within 7 days: Defendants instead  
216 issued two “supplemental” responses asserting new, untimely objections.

217 Their responses -- due nearly six months earlier -- have sandbagged Plaintiff  
218 on core factual issues, causing substantial prejudice as discovery closes August  
219 2026. Moreso, Defendants have already demanded rush production of, and  
220 received expert reports authored based on absolutely no discovery produced by  
221 them. This is clearly prejudicial.

222 //

223 **2. The Defendants Will Not Answer Truthfully Even When The Answer Is**  
224 **Clear, Available and Irrefutable:**

225 Because Defendants have been given repeated notice across multiple 37-1’s,  
226 multiple Rule 37 letters, multiple motions and therefore had exponential  
227 opportunity to cure, yet have continued to provide evasive and demonstrably  
228 inaccurate responses, **further amendment would not remedy the deficiency.**

229 **This bell cannot be unrung:**

230

231 1. ADMIT this is a handwritten signature on docket 1-4.: (*either it was*  
232 *made using a hand or it was typed*)...

256

Defense response: **DENIED**

2. ADMIT there is a typo discrepancy between these two documents (*one shows 88.6, the other shows 886*)...

Defense response: **DENIED**

3. ADMIT Jakob Balslev is the CEO, Secretary and CFO (*his own, self-signed July 2024- July 2025 SOS document declares this (Dkt #117-11 Ex. 1, p 11) (see also Walsh Decl. Re: Evidentiary Package Ex. 6))....*

Defense response: **DENIED**

4. ADMIT that you filed your motion to dismiss hours after the 7-3 conference on June 26, 2025, while knowing seven days were required prior to doing so... (*the record shows exactly this, and even her own declaration admits that very fact (see also Walsh Decl. Re: Evidentiary Package Ex. 7))*

Defense response: **DENIED**

Admissions only work to narrow issues when the truth is told -- as admissions are the equivalent of sworn testimony. *Ark.-Tenn Distributing Corp. v. Breidt*, 209 F.2d 359 (3d Cir. 1954); *United States v. Lemons*, 125 F.Supp. 686 (W.D.Ark. 1954); 4 *Moore's Federal Practice* 36.08 (2d ed. 1966 Supp.). False statements undermine Rule 36 as a whole.

257 The Defendant while under penalty of perjury, avoided answering  
258 admissions which have demonstrably clear and irrefutable binary answers. Because  
259 of their evasiveness even with these, no further remedy nor opportunity for  
260 amendment will suffice.

261 //

262 **3. Defendant Relies On Objections Removed From the FRCP, Refuses to**  
263 **Cure**

264 Defendants repeatedly rely on the outdated “reasonably calculated to lead to  
265 admissible evidence” and “subject matter involved in the action” standards, which  
266 were removed from Rule 26 in 2015 (eleven years ago). See *Sovereign Cape Cod*  
267 *Invs. LLC v. Eugene A. Bartow Ins. Agency, Inc.*, 2022 WL 624553, at \*3  
268 (E.D.N.Y. Mar. 3, 2022).

269 Defendants were placed on notice of this deficiency, yet continued to rely on  
270 these obsolete standards in subsequent discovery responses and refused to correct  
271 them, even in amended responses as recent as March 20, 2026; after multiple Rule  
272 37 letters and this motions’ table calling out this behavior was provided to the  
273 Defendants.

274 These standards have not existed during the entirety of Defendants’  
275 counsel’s legal careers (2019 and 2023 admission dates). Their continued use—

276 particularly after notice—cannot be attributed to mistake and reflects a knowing  
277 reliance on inapplicable law.

278 This conduct has caused prejudice to Plaintiff by forcing him to respond to  
279 improper objections, resulting in unnecessary expenditure of time, resources, and  
280 effort.

281 As these objections are improper, they must be disregarded.

282 //

#### 283 4. Defendants Boilerplate Objections Are Wholly Improper

284 None of the boilerplate that Defendants have written is unique to them. In  
285 fact, The precise wording from Defendants objections has been expressly  
286 admonished in decisions which state “*In every respect these objections are text-*  
287 *book examples of what federal courts have routinely deemed to be improper*  
288 *objections.*” (St. Paul Reinsurance Co. v. Com. Fin. Corp., 198 F.R.D. 508, 512  
289 (N.D. Iowa 2000)) (*See Walsh Decl. re: Evidentiary Package Ex. 1*)

290 “*Boilerplate, generalized objections are inadequate and tantamount to not*  
291 *making any objection at all.*”); *A. Farber and Partners, Inc. v. Garber*, 234 F.R.D.  
292 186, 188 (C.D. Cal. 2006). *boilerplate objections are unacceptable and all but*  
293 *meaningless. See Curtis v. Costco Wholesale Corp.*, 807 F.3d 215, 219 (7th Cir.  
294 2015)(*court did not abuse its discretion in deeming facts admitted where plaintiff*  
295 *“provided only boilerplate objections, such as ‘relevance’ and ‘vague and*

296 **ambiguous.**' ”); *Extended Care Clinical v. Scottsdale Ins.*, 2021 WL 2894163, at  
297 \*2 (N.D. Ill. 2021)(collecting cases); *Zambrano v. Sparkplug Capital, LLC*, 2020

301 harassing’ are improper – especially when a party fails to submit any evidentiary  
302 declarations supporting such objections ....”] quoting (*Dominguez v. City of*

305 //

### 306 **5. Defendants Responses to Discovery Requests Fail as a Whole**

307 Despite constant communication, detailed Rule 37 letters, exhaustive meet  
308 and confers, the Defendants refuse to follow basic rules. Many of these failures by  
309 the Defendant can not be handwaved as they are threshold issues which are  
310 generally immutable. Their responses are legally noncompliant in multiple  
311 independent ways:

- 312 1. No statements whether they are withholding documents as required by  
313 Rule 34(b)(2)(C);
- 314 2. Consistently assert privilege yet have provided no privilege logs,

- 315 3. Claim Attorney-Client privilege for documents predating their  
316 relationship with the Defendant; of which those documents Counsel has  
317 never had any involvement or relation to.
- 318 4. Refusing to cure objection language outlawed from FRCP in 2015.
- 319 5. Refusal to provide any affidavits or supporting evidence for their  
320 objections as required by law and especially by this Court.
- 321 6. Claims of vague and ambiguous without explanation of how they are  
322 vague or ambiguous.

323 As to the above (*see Walsh Decl. re: Evidentiary Package, Ex. 3*).

324 Because of these defects, their responses are invalid and unusable and must be  
325 deemed admitted.

326 //

### 327 6. Defendant Waived Objections

328 Defendants had six months to provide substantive responses, yet chose to  
329 rely on boilerplate objections. After being ordered by the Court to respond to  
330 Plaintiff's contentions within seven days, Defendants instead served amended RFA  
331 responses **inside of that window** asserting new objections rather than providing  
332 substantive answers or corrections. This was improper.

333 Objections not asserted within the 30-day response period are waived.

334 Defendants cannot revive waived objections through untimely "amended"

335 responses. Moreover, evasive answers and boilerplate objections are treated as no  
336 response at all further bolstering the necessity for waiver.

337 Even further, Defendants claims of privilege without ever providing a  
338 privilege log waives the right to claim work product protection and attorney-client  
339 privilege Rule 34 and Rule 26(b)(5)(A) which requires that a party withholding  
340 information must "describe the nature" of the items to enable other parties to assess  
341 the claim. The Defendants never provided any privilege logs for any request,  
342 despite constant urging and notice by the Plaintiff. (*see Walsh Decl. re:*  
343 *Evidentiary Package, Ex. 3)*

344 Accordingly, Defendants' objections are waived.

345 //

346 **7. Boilerplate Objections Constitute Waiver, Are Tantamount To No**  
347 **Answer,**

348 Courts consistently find that Defendants boilerplate admissions result in a  
349 waiver and equal an admission [*"A party's failure to admit or deny a matter is*  
350 *tantamount to an admission."*] (Moore v. Cox, 341 F. Supp. 2d 570, 573 (E.D. Va.  
351 2004)); [*"Boilerplate objections are legally meaningless and amount to a waiver*  
352 *of an objection."*] (Siser N. Am., Inc. v. Herika G. Inc., 325 F.R.D. 200, 209–10  
353 (E.D. Mich. 2018)); even in events where the answer is simply not complete,  
354 avoidance produces an admission [*"The Ninth Circuit affirmed that when*

355 *responses to RFAs are “evasive or incomplete,” the trial court may deem the*  
356 *matters admitted under Rule 36(a).”]* (Asea, Inc. v. S. Pac. Transp. Co., 669 F.2d

358 *filing no objections at all.”]* (Auburn Sales, Inc. v. Cypros Trading & Shipping,  
359 Inc., No. 14- 175 cv-10922, 2016 WL 3418554, at \*3 (E.D. Mich. June 22, 2016));  
360 [“*The litany of overly burdensome, oppressive, and irrelevant does not alone*  
361 *constitute a successful objection to a discovery request.”]* (Oleson v. Kmart Corp.,  
362 175 F.R.D. 560, 565 (D. Kan. 1997)); Further, in (Marchand v. Mercy Med. Ctr.,  
363 22 F.3d 933, 936–37 (9th Cir. 191 1994)) – The Ninth Circuit again upheld  
364 deemed admissions where the responding party failed to timely serve proper  
365 responses.

366 Rule 26(b)(1) provides that a mere statement by a party in a federal civil action  
367 that an interrogatory or other request for discovery is “*overly broad, burdensome,*  
368 *oppressive and irrelevant*” is not adequate to voice a successful objection to  
369 discovery; the party resisting discovery **must show specifically how** each request  
370 for production is not relevant or how each question is overly broad, burdensome or  
371 oppressive. Defendants have shown nothing of the sort.

372 Their responses must be considered no answer at all and amount to a waiver.

373 //

374 **8. The Defendants Have Failed To Provide Affidavits or Evidence For Six**  
375 **Months, Refused To Cure**

376 The Defendants refuse to submit any affidavits or evidence to substantiate  
377 their objections, which this very Court in nearly every case researched has  
378 required, thereby waiving them (*“The objecting party must show specifically how*  
379 *each discovery request is burdensome or oppressive by submitting affidavits or*  
380 *offering evidence revealing the nature of the burden.”*); Cipollone v. Liggett  
381 Group, Inc., 785 F.2d 1108, 1121 (3d Cir.1986) (holding that it is not sufficient to  
382 merely state a generalized objection, but, rather, objecting party must demonstrate  
383 that a particularized harm is likely to occur if the discovery be had by the party  
384 seeking it); Degnan, 130 F.R.D. at 331 (D.N.J.1990) (same). This very Court has  
385 agreed in other cases [*“[G]eneral or boilerplate objections such as ‘overly*  
386 *burdensome and harassing’ are improper – especially when a party fails to*  
387 *submit any evidentiary declarations supporting such objections ....”*] quoting  
388 (*Dominguez v. City of Rialto, No. 5:23-CV-1790-ODW-SPX, 2025 WL 819064, at*  
389 *\*5 (C.D. Cal. Jan. 17, 2025)*)

390 The Defendants responses are improper and must be disregarded and deemed  
391 admitted.

392 //

393 **9. Defendants’ Supplemental Amended Answers Should Be Stricken**

394 For all the reasons above and insofar that Defendants Rule 26(e) duty to  
395 supplement is not a “get out of jail free card,” nor does it permit indefinite delay.

396 **Supplementation is not a second bite at the apple to object; supplementation is**  
397 **for correction or addition of information only.** Further, the rule requires  
398 supplementation “in a timely manner” once a party learns its responses are  
399 materially incomplete or incorrect. Defendants were repeatedly placed on notice of  
400 deficiencies through Rule 37-1 conferences, correspondence, and motions  
401 beginning in September 2025 and continuing through March 2026. On January 31,  
402 2026 (Dkt. #144), Plaintiff provided a comprehensive breakdown of Defendants’  
403 inaccurate and evasive responses, supported by Defendant-derived admissions  
404 showing that each request not only required, but welcomed a direct admission or  
405 denial. The supplemental responses do not serve the narrow purpose of Rule 26(e)  
406 as **they do not correct inaccuracies or add information** not otherwise available  
407 at any other time.

408 Dayton Valley Investors v. Union Pacific R. Co., 2010 WL 3829219 (D.  
409 Nev.) (citation omitted); see also Advisory Comm. Notes to 1993 Amendments  
410 (*“Supplementations need not be made as each new item of information is learned*  
411 *but should be made at appropriate intervals during the discovery period, and with*  
412 *special promptness as the trial date approaches”). Awareness brought no*  
413 supplementation from the Defendant, Rokoko Electronics.

414 Defendants therefore had continuous knowledge of the inaccuracies, yet  
415 failed to timely supplement in violation of Rule 26(e). This failure caused clear  
416 prejudice, forcing Plaintiff to expend substantial time and resources while  
417 preparing and being forced to submit expert materials without narrowed or  
418 corrected discovery.

419 Courts may consider improper conduct and lack of reasonable explanation in  
420 evaluating untimely discovery behavior. *Carlson v. Freightliner LLC*, 226 F.R.D.  
421 343, 361 (D. Neb. 2004). "[R]ule 26(e) creates a duty to supplement, not a right."  
422 See *Luke v. Family Care and Urgent Medical Clinics*, 323 Fed. Appx. 496, 500  
423 (9th Cir. 2009).

424 Defendants' [supplemental objections] are procedurally improper, untimely and  
425 prejudicial and should be stricken and an OSC issued.

426 //

427 **10. Defense Has Shown No Burden or Good Cause For The Above**

428 The party resisting production bears the burden of establishing lack of  
429 relevancy or undue burden. *Oleson v. Kmart Corp.*, 175 F.R.D. 560, 565  
430 (D.Kan.1997) ("*The objecting party has the burden to substantiate its*  
431 *objections.*") (citing *Peat, Marwick, Mitchell & Co. v. West*, 748 F.2d 540 (10th  
432 Cir.1984), cert. dismissed, 469 U.S. 1199, 105 S.Ct. 983, 83 L.Ed.2d 984 (1985));

433 accord G-69 v. Degnan, 130 F.R.D. 326, 331 (D.N.J.1990); Flora v. Hamilton, 81  
434 F.R.D. 576, 578 (M.D.N.C.1978).

435 The party must demonstrate to the court (“*that the requested documents*  
436 *either do not come within the broad scope of relevance defined pursuant to*  
437 *Fed.R.Civ.P. 26(b)(1) or else are of such marginal relevance that the potential*  
438 *harm occasioned by discovery would outweigh the ordinary presumption in favor*  
439 *of broad disclosure....*”) Burke v. New York City Police Department, 115 F.R.D.  
440 220, 224 (S.D.N.Y.1987).

442 *oppressive and irrelevant’ is not adequate to voice a successful objection.*”) \*512

447 omitted). [*“On the contrary, the party resisting discovery ‘must show specifically*

451 //

452 **11. Adverse Inference Is Appropriate In Granting Relief**

453 Under Rule 37(e)(2), an adverse inference is warranted where evidence is  
454 destroyed, lost, or not produced and the circumstances support an inference of  
455 intent to deprive another party of its use in litigation. (*See Akiona v. United States;*  
456 *Glover v. BIC Corp*) **That standard is satisfied here.**

457 An adverse inference is a (“*detrimental conclusion drawn by the fact-finder*  
458 *from a party’s failure to produce evidence within its control.*”) - Black’s Law  
459 Dictionary

460  
461 The Court previously stated: (“*if at a later date ... after discovery is*  
462 *underway and there’s been a lot of back and forth... If you have concerns about*  
463 *spoliation... then you can come back to the court*”). **That time is now.**

464 Plaintiff does not seek sanctions at this time, but presents a pattern from  
465 which intent may properly be inferred. As detailed in Dkt #117-11, #117-12 (*and*  
466 *Walsh Decl. re: Evidentiary Package, Ex. 4*) **First**, Defendants spoliated then  
467 failed to produce any operative agreement (2020, 2022, respectively). **Second**, they  
468 then refused production of the same, directing Plaintiff to seek it in discovery.  
469 **Third**, they then refused to produce those documents in discovery. **Fourth**,  
470 Plaintiff recovered the spoliated 2020 agreement and submitted it to the Court  
471 **Fifth**, only then did Defendant’s produce. However, not real agreements, they were  
472 unpublished Danish attorney drafts, provided in non-native format (despite Court

473 order) with their original metadata destroyed due to ReedSmith’s PDF editing tool  
474 ‘Aspose.PDF’; with the metadata showing they were hand-edited by Rokoko’s  
475 Counsel over 23 minutes (Ex. 6). **Sixth**, they submitted one of the never operative  
476 or published drafts with an effective date inconsistent with the relevant period, in  
477 order to prevail on a pending dispositive motion. (Ex. 5)

478  
479 The Defendant even admits they are unsure how Plaintiff recovered the  
480 spoliated evidence (*Dkt #139, Ex. 2, 3 shows precisely how*). They further admit  
481 the terms they put before the Court under judicial notice are entirely different and  
482 not operative:

483  
484 (*“While it is unclear where Plaintiff sourced the 2020 Terms he references,*  
485 *it is clear that they are from an entirely different agreement than the 2025*  
486 *Terms Rokoko put forth in its Request for Judicial Notice” – Dkt #153).*

487  
488 **The Court should be aware, Plaintiff stopped being a customer/user in**  
489 **2024, creating an inescapable timeline problem.** The Defendant requested judicial

490 notice of a document never in existence while the Plaintiff was a user.

491 Unfortunately, they also refuse to produce evidence that Plaintiff ever agreed to  
492 any terms, ever; despite the fact that their source code was written to track and

493 receive that consent (see Am. Compl. Ex. 57).

494

495  ***(“REQUEST FOR PRODUCTION NO. 41. Produce documents***  
496  *along with associated metadata sufficient to demonstrate each time in*

497  *which Plaintiff has agreed to the Rokoko Studio Terms & Conditions*

499  ***RESPONSE TO REQUEST FOR PRODUCTION NO. 41. In***

504  *extent it calls for an improper legal conclusion. Whether Plaintiff has*  
505  *“agreed” to the Rokoko Studio Terms & Conditions is a legal*  
506  *conclusion that is not an appropriate subject for a request for*  
507  *production of documents. Rokoko also objects that the Request*

514  *objects to the Request to the extent it calls for the disclosure of*  
515  *privileged or protected information, including without limitation,*  
516  *information subject to the attorney-client privilege, attorney work*  
517  *product doctrine, or any other statutory or common-law privilege”)*

Despite repeated notice, Defendants have neither produced the operative governing contracts, evidence of assent, nor provided a substantiated explanation beyond (“*They are simply a separate contract from the one he was referencing.*”). Separate contract in this instance simply means ‘from a different time period’ as these agreements are implemented through clickwrap terms embedded within Defendants’ own software installers and correspond to the year of their release (2020–2022 & 2022–2025 & 2025–present). (*See Dkt #140-2, Ex. 5 for all versions, their terms and the Defendant’s website archives evidencing their release dates.*)

The gravamen is this... The Defendants avoid producing adverse evidence; and have even gone out of their way multiple times to disrupt it’s accessibility in this matter. Further, they refuse to take any legal positions whatsoever through admissions to narrow or clarify those issues as those too are adverse and potentially dispositive of claims. **They are hiding the ball.**

The Court should apply an adverse inference and deem the withheld evidence unfavorable, and grant corresponding relief to prevent ongoing prejudice as well as deem these admissions as admitted. (*See Zubulake v. UBS Warburg; Residential Funding Corp. v. DeGeorge Financial Corp.*)

539 CONCLUSION

540 This Court stated once a protective order was signed (*“Then, the parties can*  
541 *get back on track to responding to each other’s written discovery... That’s what I*  
542 *would like to see accomplished here.”*). Plaintiff has done exactly that—producing  
543 over 3,750 Bates-stamped and fully prepared pages, along with native counterparts  
544 in high resolution multipage TIFF, JPEG, PDF, and text formats, including  
545 extracted EXIF metadata, extremely detailed master indexes, privilege logs,  
546 confidential stamped documents, load files (Relativity, Concordance, OPT and a  
547 custom XML load file) along with numerous sub-indexes organized by responsive  
548 keywords in a vendor-like package so complete their own expert asked (*“There*  
549 *are lots of folders and files downloading now. **Is this a Relativity***  
550 ***production?** Looks to have load files but more folders that I’m used to seeing.”*)  
551 (*See Walsh Decl. re: Evidentiary Package Ex. 2*). Plaintiff even built his system to  
552 issue delta updates at their request in good faith (*“**It is costly** to re-upload your*  
553 *entire document production into our e-discovery... Can you please just produce*  
554 *only the new documents”*). In stark contrast, the Defendants have provided  
555 absolutely nothing they have been asked for and have refused to comply with  
556 Court orders including one which allowed Plaintiff to receive native files.

557 Defendants must not be permitted to control the flow of evidence relative to  
558 it's adversity nor game discovery and the FRCP by sandbagging and obstructing  
559 discovery. **Any consequences imposed are simply the cause and effect of their**  
560 **own willful decisions.** (*"litigants, such as the ... Defendants, often find themselves*  
561 *continually crawling out of a discovery hole of their own making"*) quoting H&H  
562 Global Concepts, Inc. v. Slevin, Case No. 19-cv-2120 (S.D.N.Y. May 2, 2019).  
563 The Court should not aid them in doing so and relief must be justifiably applied.  
564 (*"[I]t is not a judge's job to assist one advocate at another's expense."*) *Fednav*  
565 *Int'l Ltd. v. Cont'l Ins. Co.*, 624 F.3d 834, 842 (7th Cir. 2010).

566  
567 For the reasons stated herein, the Court should sustain Plaintiff Walsh's Motion to  
568 Compel; Deem Admitted in its entirety thereby granting it in full.

570 **PRAYER FOR RELIEF**

571  
572 The Plaintiff respectfully requests that the Court:

- 573 • STRIKE the Defendants two improper supplemental RFA responses.
- 574 • ORDER that Defendant has waived objections to the RFA's in question.

- 575 • ORDER that the Defendants have waived work product across all discovery  
576 requests to date and attorney-client privilege objections (*as they refused to*  
577 *provide any privilege log or statements of withholding.*) (26(b)(5), Rule  
578 *37(b)(2), Coker v. Goldberg & Assocs, Mezu v. Morgan State, Bautech USA*  
579 *v Evolve Equip.*)
- 580 • DEEM Defendants admissions as admitted without further delay to  
581 discovery - **OR, in the alternative** - Compel the Defendants to answer all  
582 admissions without objection within 7 days and schedule a prompt follow-up  
583 IDC after Plaintiff review.
- 584 • ORDER Defendants to show cause why they should not be sanctioned for  
585 continuing to rely on outdated FRCP objections, refusal to cure, refusal to  
586 correct and refusal to comply with their Rule 26 duties for all the reasons  
587 listed herein.
- 588 • ORDER Defendants to show case within 7 days, whether they can  
589 controvert Plaintiff's contentions regarding spoliation and adverse inference;  
590 otherwise adverse inference or more severe sanctions may be implemented.
- 591 • ORDER an IDC for singular and final resolution of the remaining discovery  
592 issues regarding RFP's and Interrogatories within 14 days if possible

- Scheduling Note: *(both sides have already prepared joint tables, Plaintiff's table references only two reiterated/referenced arguments applied to all of Defendant's boilerplate complaints; Defendant only has about five discovery requests they wish to compel)*

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
